

The Heart of Forever (Amy's Song)

We all meet stormy weather
And don't you know we're in this life together
Loving hearts in a dance
Where everyone deserves to have a chance
She didn't quit, fought to the end
A daughter sister mother wife and devoted friend
There wasn't anything at all, Amy wouldn't give
She would have wanted you, to have a chance to live

So come all, so come one
For every battle lost,
There's a war yet to be won
Her spirit lives, so very near
In the heart of forever
Where love lives
She's right here

In the name of love, the heart breaks
In the name of life, for all our sakes
We steal a piece of heaven from the grasp of hell
An offered hand
Lifts yourself as well

CHORUS

Fight to live,
Take and give
With hope so near
In the tenderness of fingertips
That brush away a tear

In the heart of forever
Where love lives
She's right here
