

## **Tyrannosaurus Ex**

There's a beast that stalks the jungle  
Born of a demon seed  
It wants to kill you slowly  
Laughing while you bleed  
There's a beast that roams the jungle  
Vengeance is its game  
You may have heard of this fearsome beast  
It goes by the name  
Tyrannosaurus Ex

It will use the children  
Anything to ruin your life  
It may be your ex husband  
It may be your ex wife  
It will go to heinous lengths  
Like you've never seen  
And once its favorite color  
May have been blue  
But baby now its green  
Tyrannosaurus Ex

There's a beast that roams the jungle  
I hope you're not its prey  
'cause whatever your orientation was  
It'll make you go the other way  
There's a beast that stalks the jungle  
Vengeance is its game  
You may have heard of this fearsome beast  
It goes by the name  
Tyrannosaurus Ex
